

New Employee Alert!

North Plains Groundwater Conservation District would like to welcome Shelby Thornton to the district's field staff. Shelby is a December 2022 graduate from WTAMU with her bachelor's degree in Plant, Soil, and Environmental Sciences. While there she was the President of the Agronomy Club as well as the Senior Soils Judging Team Captain.

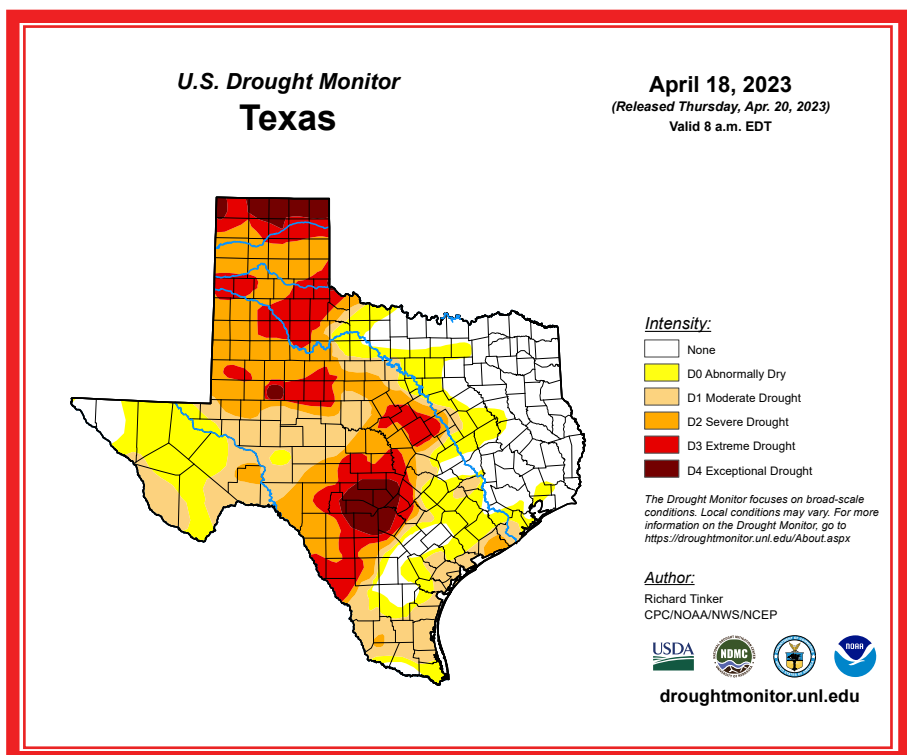

When asked why she chose to apply at the District Shelby said, "I have always had an interest and passion for conservation and working with the district in the past, I felt like it would be a great fit." So far, Shelby's favorite part of the job is everything she is learning. She is having fun applying what she has learned in the past to what she is learning now, being around wells and this experience."
