

Send completed form by email to productionreporting@northplainsgcd.org, by mail to PO Box 795, Dumas TX 79029 or in person at 603 E. First Street, Dumas Texas.

Any questions? Call (806) 935-6401

****Please be advised that requests that do not contain all necessary information or are on property not previously established with the District in your name will take longer to process than others.**

A registration will be generated for a signature based on the verifiable information you provide below. Once all the registration is signed and returned to the District, an approved copy will be issued to you. By submitting this form, you authorize North Plains Groundwater Conservation District to send you notifications via email and SMS text messages related to official district communications. Your contact information will be used exclusively for GCD notification purposes and will not be shared or used for any other purpose outside the District's communication needs.

Groundwater Conservation Reserve

GPU should retain its existing Groundwater Conservation Reserve Bank: Yes No

If you chose yes above, District staff will be in touch with you to determine the documentation needed to retain Groundwater Conservation Reserve. GPU documentation must be provided and the GPU form accepted before the end of the calendar year to be in effect for that production report.

Once a GPU has been established, it must remain in effect for one production year.

I do hereby certify that I am the Groundwater Right Owner or authorized by the Groundwater Right Owner to file this Groundwater Production Unit application. I affirm that the foregoing is true and correct. I agree this Groundwater Production Unit must comply with all applicable District Rules.

Signature: _____ Date: _____

DISTRICT USE ONLY
